EXPERIENCE

FULL STACK WEB DEVELOPER TRAINEE

IT Career Switch, London | 08/2023 – 08/2024

- Developed responsive front-end applications with HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Used React components to boost user engagement.
- Engineered full-stack solutions with Express.js and Node.js, optimizing software architecture.
- Integrated APIs for efficient front-end/back-end communication.

WEB DEVELOPER (FREELANCE)

08/2023 – Present

- Developed "Gazetteer," web map application using HTML, CSS, JavaScript, and jQuery, integrating PHP for third-party API data.
- Created "Company Directory," a mobile-first personnel database application with SQL backend, ensuring user acceptance and achieving project sign-off through rigorous testing.
- Enhanced online e-commerce presence by creating and managing comprehensive product listings utilizing HTML and CSS and JavaScript to ensure visually appealing and consistently formatted displays across multiple devices.

Better GLL

IT support, London | 06/2017 – 04 / 2024

- Oversaw daily maintenance of IT systems, ensuring peak performance of network and communication infrastructure.
- Deployed and managed end-user hardware, including provisioning, updates, connectivity, and configuration across Windows 10/11, MacOS, and iOS platforms.
- Supported audio-visual systems in meeting rooms, including touch screen TVs, projectors, and various AV devices, ensuring seamless operation.
- Administered Microsoft 365 applications, facilitating effective collaboration and communication among users.
- Provided comprehensive end-user support and training on IT software, systems, and processes, both in-person and remotely, to enhance user proficiency.
